Market Challenges, What's Next? Exclusive Market Close Call from LPL Financial Research

October 6th, 2008 VIA EMAIL

Through our affiliation with LPL Financial we are backed by one of the leading independent research teams in the industry. Their singular focus is helping us to make informed investment decisions that will help you meet your unique investment goals.

Recent significant market events have impacted all of us in a variety of ways. As some of the most well known companies in the financial industry face extreme challenges, the barrage of news bulletins, warnings, and the recent failure of the recovery package has left many questions and concerns.

To help provide some clarity and perspective on these and other issues, the LPL Financial Research team conducted a conference call "Market Challenges, What's next?" that we are pleased to share with you via a dial-in replay. The 40-minute call is hosted by Jeffrey Kleintop, CFA, Chief Market Strategist and Burt White, Director of Research of LPL Financial.

We encourage you to dial in. And while we expect that financial markets will remain volatile for some time, we are confident we will work through this difficulty and return to growth. Please call us with any questions or concerns. The conference call replay information is listed below.

Important Disclosures The opinions voiced in this material are for general information only and are not intended to provide or be construed as providing specific investment advice or recommendations for any individual. To determine which investments may be appropriate for you, consult your financial advisor prior to investing. All performance referenced is historical and is no guarantee of future results. All indices are unmanaged and cannot be invested into directly. Small-cap stocks maybe subject to higher degree of risk than more established companies' securities. The illiquidity of the small-cap market may adversely affect the value of these investments. International investing involves special risks such as currency fluctuation and political instability and may not be suitable for all investors. Bonds are subject to market and interest rate risk if sold prior to maturity. Bond values will decline as interest rate rise and are subject to availability and change in price. High yield/junk bonds are not investment grade securities, involve substantial risks and generally should be part of the diversified portfolio of sophisticated investors.
